Hera.Babu@gmx.de

SHORT PROFILE

Life sciences graduate with a background in bioinformatics, molecular biology, and scientific data handling, seeking to transition into clinical research and clinical operations.

Experienced in biological data collection, protocol-driven research workflows, scientific documentation, Python-based workflow automation and data analysis, with a quality-focused approach to handling scientific information.

GCP-certified professional with strong adaptability, analytical thinking, communication skills, and a calm, reliable, detail-focused approach to work.

RELEVANT CERTIFICATIONS

Good Clinical Practice (ICH-GCP E6(R3))
The Global Health Network | Online
Nov 2025

RELEVANT ACADEMIC AND TRANSFERABLE EXPERIENCE

Google UX Design Professional Certificate
Instructor: Google Career Certificate | Coursera, Online
May 2025 – Oct 2025

- Applied principles of human-centred design and usability, improving clarity in documentation and promoting user-focused thinking.

Leben in Deutschland
Klartext Zentrum für Sprache, Kultur, Beruf e.V. | Online
Apr 2025 – May 2025

Deutsch-Test für den Beruf B2
Klartext Zentrum für Sprache, Kultur, Beruf e.V. | Munich, Germany
Sep 2024 – Feb 2025

Portfolio Website Development
2022 – 2023
Portfolio: https://herababu.github.io/Portfolio/

- Completed practical training in **HTML, CSS, and JavaScript** through freeCodeCamp and applied the knowledge by developing a responsive personal portfolio website
- Designed and structured the website to ensure accessible navigation, clear content presentation, and a user-friendly experience
- Tested layout, links, responsiveness, and functionality manually across different screen sizes

Protein Docking Workflow Automation Project
Completed workflow component toward M.Sc. thesis research
Saarland University | Saarbrücken, Germany
2018 – 2019

- Completed a Python-based workflow component for a master's thesis project, retrieving and structuring protein phosphorylation-site data from PhosphoSitePlus and protein structure data from the Protein Data Bank (PDB)
- Processed modified residue information, PDB files, chains, and residues to prepare standardized inputs for protein–protein docking analysis
- Automated preparation of protein structures, batch submission to HADDOCK web server and retrieval of docking result files

Practical Programming Course: ADVANCED C++
Chair for Clinical Bioinformatics, Saarland University | Saarbrücken, Germany
Mar 2017 – Oct 2018

- Developed C++-based solutions using advanced algorithms for efficient analysis of biological data

Summer School: EXPLORING NATURE'S MOLECULAR MACHINES
Utrecht University | Utrecht, Netherlands
Jul 2015

- Gained hands-on advanced skills in structural biology and biophysics by combining lectures, laboratory sessions (X-ray crystallography and NMR spectroscopy), and scientific discussions in an international academic environment

Deutsch-Test für Zuwanderer B1
Klartext Zentrum für Sprache, Kultur, Beruf e.V. | Munich, Germany
Jul 2014 – Feb 2015

Bachelor Thesis
Cochin University of Science and Technology | Kerala, India
Dec 2012 – Apr 2013
Research Topic: "Genetic variation of Polychaetes in selected Aquatic ecosystems"

- Conducted field sampling and specimen collection across multiple estuarine and coastal ecosystems in southern India
- Performed morphological identification and taxonomic classification using dissection techniques and microscopy-based analysis
- Executed molecular biology workflows, including DNA extraction, PCR amplification (COI gene), and sequence preparation for downstream analysis
- Carried out sequence analysis to evaluate genetic variation and phylogenetic and haplotype-based analysis

Summer Internship – Biotechnology Training
Scinicorn Labs | Kerala, India
June 2012

- Followed laboratory protocols for DNA extractions**,** sample handling**,** routine laboratory workflows carefully and developed practical skills in documentation and structured laboratory work

Summer Internship
Supa Hospital – Maternity and Gynaecology Care Center | Tamil Nadu, India
June 2011
Research Topic: "Lactation Support Needs Assessment"

- Designed and conducted a questionnaire-based study involving pregnant and postpartum women to gather feedback for the planned development of a lactation support center

- Collected and documented primary data on feeding practices, milk donation awareness, and participant background information using a structured survey format
- Performed basic data analysis in Microsoft Excel, including percentage-based summaries and bar charts, to identify response patterns and inform service planning

EDUCATION

Graduate Studies in Bioinformatics, 67 ECTS completed
Saarland University | Saarbrücken, Germany
Sep 2015 – Oct 2019
Coursework completed toward M.Sc. Bioinformatics; degree not completed.

Relevant Coursework: Modern Methods in Drug Discovery, Advances in Drug Delivery, Epigenetics, Systems Toxicology, Processing of Biological Data

Bachelor of Technology in Bioinformatics
Karunya University | Tamil Nadu, India
Jun 2009 – May 2013
Grade: 7.95 / 10

Relevant Coursework: Bioethics, IPR and Biosafety, Probability and Biostatistics, Immunotechnology and Informatics

LANGUAGES

Badaga	Native
English	Native
Tamil	Native
German	Full working proficiency

FURTHER QUALIFICATIONS

MS Office	Very good knowledge
C++	Very good knowledge
Python	Very good knowledge
R	Basic knowledge
JavaScript	Basic knowledge
HTML & CSS	Very good knowledge
Figma	Good knowledge
